AD-01-008	Nadir Equipment Pool	2024-Q4	historical	32,701
AD-01-009	South Relay Administration	2021-Q1	closed	33,492

Context notes

Record AD-01-01-01 concerns North Ring Authority at North Ring. It was reviewed at an archived value of 31,385 credits because a prior-period control review found a mismatch between the manifest label and the archived dispatch note. Record AD-01-01-02 concerns Madrigal Freight Collective at Dune Annex. It was reclassified at an archived value of 33,440 credits because the responsible authority confirmed that the record belonged to another entity and another reporting period. Record AD-01-01-03 concerns Aurelian Yard Services at East Relay. It was closed at an archived value of 35,495 credits because the operational team retained the entry for audit history even though it has no effect on the September 2025 close. Record AD-01-01-04 concerns Orison Transit at South Relay. It was routed at an archived value of 37,550 credits because a subsequent filing replaced the working estimate before the record was moved into the historical archive.

Record AD-01-02-01 concerns Madrigal Freight Collective at East Relay. It was reclassified at an archived value of 34,262 credits because the responsible authority confirmed that the record belonged to another entity and another reporting period. Record AD-01-02-02 concerns Aurelian Yard Services at South Relay. It was closed at an archived value of 36,728 credits because the operational team retained the entry for audit history even though it has no effect on the September 2025 close. Record AD-01-02-03 concerns Orison Transit at Bay A. It was routed at an archived value of 39,194 credits because a subsequent filing replaced the working estimate before the record was moved into the historical archive. Record AD-01-02-04 concerns Cinderline Exchange at Bay B. It was quarantined at an archived value of 41,660 credits because the transaction was never posted to the current ledger and remains visible only as a training or control example.

Authority note. This archive does not supersede any 2025 amendment, final committee close, current roster, active asset register, incident report, receipt, or warehouse intake label in the practice case.

Historical asset disposal dossiers section 2

This material is retained for background and audit continuity. It concerns a different entity, a superseded process, or a period outside the September 2025 Kestrel Meridian case close.

AD-02-009	Blue Veldt Historical Trust	2022-Q1	closed	42,984

Context notes

Record AD-02-01-01 concerns Orison Transit at Dune Annex. It was reclassified at an archived value of 36,180 credits because the operational team retained the entry for audit history even though it has no effect on the September 2025 close. Record AD-02-01-02 concerns Cinderline Exchange at East Relay. It was closed at an archived value of 38,920 credits because a subsequent filing replaced the working estimate before the record was moved into the historical archive. Record AD-02-01-03 concerns Glass Arc Brokerage at South Relay. It was routed at an archived value of 41,660 credits because the transaction was never posted to the current ledger and remains visible only as a training or control example. Record AD-02-01-04 concerns Kharon Dockworks at Bay A. It was quarantined at an archived value of 44,400 credits because the named location used a legacy coding scheme that cannot be joined to current case records without an entity check.

Record AD-02-02-01 concerns Cinderline Exchange at South Relay. It was closed at an archived value of 40,016 credits because a subsequent filing replaced the working estimate before the record was moved into the historical archive. Record AD-02-02-02 concerns Glass Arc Brokerage at Bay A. It was routed at an archived value of 43,304 credits because the transaction was never posted to the current ledger and remains visible only as a training or control example. Record AD-02-02-03 concerns Kharon Dockworks at Bay B. It was quarantined at an archived value of 46,592 credits because the named location used a legacy coding scheme that cannot be joined to current case records without an entity check. Record AD-02-02-04 concerns Nadir Equipment Pool at Bay C. It was returned at an archived value of 49,880 credits because a prior-period control review found a mismatch between the manifest label and the archived dispatch note.

Authority note. This archive does not supersede any 2025 amendment, final committee close, current roster, active asset register, incident report, receipt, or warehouse intake label in the practice case.

Context notes

Record AD-03-01-01 concerns Kharon Dockworks at East Relay. It was closed at an archived value of 40,975 credits because the transaction was never posted to the current ledger and remains visible only as a training or control example. Record AD-03-01-02 concerns Nadir Equipment Pool at South Relay. It was routed at an archived value of 44,400 credits because the named location used a legacy coding scheme that cannot be joined to current case records without an entity check. Record AD-03-01-03 concerns South Relay Administration at Bay A. It was quarantined at an archived value of 47,825 credits because a prior-period control review found a mismatch between the manifest label and the archived dispatch note. Record AD-03-01-04 concerns Blue Veldt Historical Trust at Bay B. It was returned at an archived value of 51,250 credits because the responsible authority confirmed that the record belonged to another entity and another reporting period.

Record AD-03-02-01 concerns Nadir Equipment Pool at Bay A. It was routed at an archived value of 45,770 credits because the named location used a legacy coding scheme that cannot be joined to current case records without an entity check. Record AD-03-02-02 concerns South Relay Administration at Bay B. It was quarantined at an archived value of 49,880 credits because a prior-period control review found a mismatch between the manifest label and the archived dispatch note. Record AD-03-02-03 concerns Blue Veldt Historical Trust at Bay C. It was returned at an archived value of 53,990 credits because the responsible authority confirmed that the record belonged to another entity and another reporting period. Record AD-03-02-04 concerns North Ring Authority at Bay D. It was amended at an archived value of 58,100 credits because the operational team retained the entry for audit history even though it has no effect on the September 2025 close.

Authority note. This archive does not supersede any 2025 amendment, final committee close, current roster, active asset register, incident report, receipt, or warehouse intake label in the practice case.
